Dear Friends,

Heartiest greetings and warm wishes for the forth-coming season of festivals.

We are once again organizing our annual event, **SIXTH NATIONAL CHAMPIONSHIP – 2015**.

Amidst the hectic schedules of festivals and marriages during October and November, we have been privileged to get support of all our channel partners and parents, who promote their children to participate in this event and make it a success.

Your continuous enthusiasm motivates us to move forward, and no words can be sufficient to thank everyone.

This communication may be treated as preliminary information, so that you may start preparing your students for the competition.

B.

In order to create even more transparency and ensure that no deserving student may face adversities because of slightest possible human error in invigilation, the pattern of the championship exams is being planned in a different manner.

The number of questions in each exam is being increased substantially compared to the last year, to an extent that a student may not be able to complete the test in specified time. Please tell your students not to be disheartened, as it will happen with all students. You just need to prepare your students so as to improve their speed and accuracy. The results will be formulated as a percentile instead of a percentage.
